INSTRUCTIONS FOR BULK PRODUCT DETAILS UPLOAD

1. Download the Template File:
    - Click the "Download Template" button to download the pre-formatted spreadsheet.
    - The template will include columns for all required product details.

2. Fill in the Product Details:
Open the downloaded file using a spreadsheet editor (e.g., Microsoft Excel, Google Sheets).
Add product information in the respective columns.

3. Validate Data:
Double-check the file for errors or incomplete information.
Save the file in one of the supported formats: .xls, .xlsx, or .csv.

4. Upload the Completed File:
Return to the Bulk Add Products interface.
Drag and drop the file into the upload area, or click "Browse Files" to select it manually.

5. Confirmation:
Once processing is complete, a confirmation message will appear:
"Your products have been successfully uploaded."
If there are errors, an error report will be generated with details for correction.

    - Ensure all data matches the template headers.
    - Fix errors if any mismatched or missing columns are detected.
4. Review and Download:
    - View calculated results on-screen or download a detailed report.

CALCULATOR INSTRUCTIONS

Product Net Landing Cost = Product Cost (landed at warehouse) + Storage Charges + Product Preparation Cost (RTD) + GST

Note:

- These calculations are for illustration purposes only. eGAS does not guarantee or provide warranties on the suggested prices and is not responsible for P&L outcomes.
- Calculations account for GST and TCS/TDS considerations

Return %:
This represents the expected percentage of orders returned (RTV) out of 100 processed orders. Cancellations & RTO are not included. The return rate can range from 5% to 40%, depending on product category. Please confirm with your team for the current return rate.
